

Windows Vista®

Make the Move to Windows Vista, and Work Smarter

Improve security, efficiency, and productivity with one simple move. Windows Vista will help your entire business work smarter. Here's why:

1. Get more done, faster and easier

Choose an operating system that moves as quickly as your changing customer demands. Find the programs, business records, and e-mail messages you need to get things done in seconds, not minutes.

Do more—faster

Instant search and easy-to-use visual menus make it easier for you to find and access documents, programs, and media faster than ever before.

Use photos to market your business

Add impact and personality to your website and marketing materials. Add and enhance your own images, easily and quickly, without having to call in outside help.

Windows Photo Gallery: [Learn more](#)

Make DVDs easily

With Windows Vista Ultimate, you can create and burn professional-style DVDs easily and quickly.

2. Safer, more secure, simple

Protect your customer information, business records, and computers. Windows Vista can help shield your business from malicious software and from data loss caused by PC crashes and theft.

Help secure your sensitive information

Windows Vista Ultimate helps protect you and your customers with full drive encryption. Easy to set up and use, this encryption makes it much harder for outsiders to expose and use your information.

Windows BitLocker Drive Encryption: [Learn more](#) | [See it in action](#)

Guard against malicious software

Windows Vista helps protect your computers from unwanted software, resulting in sixty percent less malware on your PCs compared to earlier versions of Windows.

Built-in Anti-Spyware: [Learn more](#) | [See it in action](#)

Protect against hardware failure

The new Windows Vista system image backup feature takes a perfect "picture" of your PC's hard drive, so you can easily restore your data, applications, favorites, and settings.

Protect yourself from data loss

Have you ever deleted or accidentally changed a file? Not a problem. Windows Vista Ultimate and Windows Vista Business automatically create hidden backups.

3. Work how you want, where you want

Boost flexibility to advance your business. With powerful mobility and collaboration features that let you work from virtually anywhere, Windows Vista can help you keep ahead of your changing business needs.

Get more done out of the office

Wherever you find yourself, Windows Vista helps you keep your work on track. Keep your customer, schedule, and other information at hand by syncing your cell phone or mobile device with your PC.

Stay in touch with suppliers and customers from anywhere with tools that make it easy to join wireless hotspots and work remotely.

Find the soundtrack for your business

Playing music and video in your place of business can help you welcome customers and set the right tone. With Windows Vista Ultimate, you can easily manage music and playlists, play tracks with a remote control, and even record live television to play back later.

4. Stability and strength you can depend on

Make the right choice for your growing business. Windows Vista provides current and future compatibility with software applications, peripherals, and services that is unmatched by any other Microsoft operating system.

Stay better protected and current

Windows Vista helps keep you protected and current with automatic updates. Get security patches, compatibility updates, and even new functionality—automatically and hassle-free.

Get started quickly on new PCs

With Windows Vista, you can easily add a new computer to your business without missing a beat, automatically transferring important information and settings from an old computer to the new one.

Windows Easy Transfer: [Learn more](#) | [See it in action](#)

Improve Your PC's Performance

Windows Vista helps you get more speed and responsiveness out of your existing PCs without forcing you to purchase more system memory. And because Windows Vista resumes from sleep and suspend modes quickly, you save time and remain productive.
